

Dual Channel Diverter Valve WZK.

- _ Suitable for fluid group 2 according to PED (fluid group 1*)
- _ Applicable in Ex-zones with additional accessories*
- _ Reinforced actuator*
- _ Wear protection*
- _ Various seal materials
- _ Signal box on right-hand-side or left-hand-side* (WZK 50-150)
- _ Actuator on right-hand-side or left-hand-side* (WZK 186-265)
- _ Quick cleaning
- _ High temperature execution*

* Option

Straight through:

Diverted:

DIVERTER VALVE | WZK

PRESSURE RANGE	2/5 bar (29/58 psi), system and differential pressure (size 50 -150 = 5 bar/186 -265 = 2 bar)
PRESSURE SURGE PROOF	4/10 bar (58/145 psi), due to heavy duty design (size 50 -150 =10 bar/186 -265 = 4 bar)
OPERATION TEMPERATURE	-20°C up to 100°C
APPLICATION	For distribution or collection in pneumatic conveying systems and in gravity pipes
DESIGN	Dual channel diverter in cylindrical design
SEAL CONFIGURATION	Pressure assisted seal at each part
MATERIAL OF CONSTRUCTION	Cast aluminium with stainless steel pipe insert
